MANAGED PORTFOLIO & MDA SOLUTIONS

TRANSFORM YOUR BUSINESS

Our Managed Portfolio & MDA solutions enable you to provide efficient and responsive advice to clients. The service enables you to streamline your advice delivery and outsource the portfolio management to the experts.

With 30 portfolio options, the Lifespan Managed Portfolio & MDA service offers a suite of Strategic Asset Allocation 'SAA' blended, with Tactical Asset Allocation 'TAA' portfolios, including a low-cost index option.

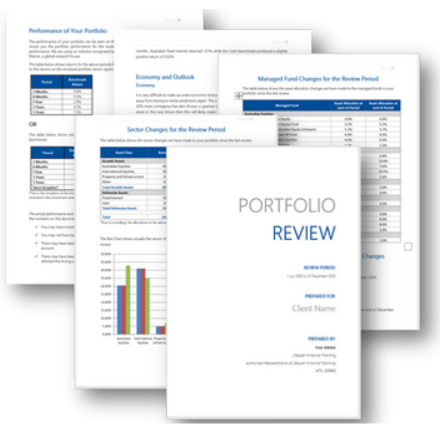
BRIAN LONG

Senior Investment Specialist- Managed Accounts

Brian Long works alongside the Lifespan Practice Development team, to support and educate advisers to effectively use the Lifespan Managed Portfolio and MDA service with their clients.

Education is key. Alongside Brian educating and supporting advisers, we have a wealth of client material to assist advisers to explain and educate their clients regarding the MDA and managed portfolios.

Brian is also a valuable member of the Lifespan Investment Committee.



RESEARCH

JOHN KOUNADIS

Research Manager

Lifespan employs a dedicated in-house research manager, John Kounadis, who maintains the APL, our managed portfolios, and shares his expertise across our advice community.

John has an in-depth understanding of the funds management process, as well as the macroeconomic environment. He is well placed to evaluate products and identify the underlying skill sets of investment managers.

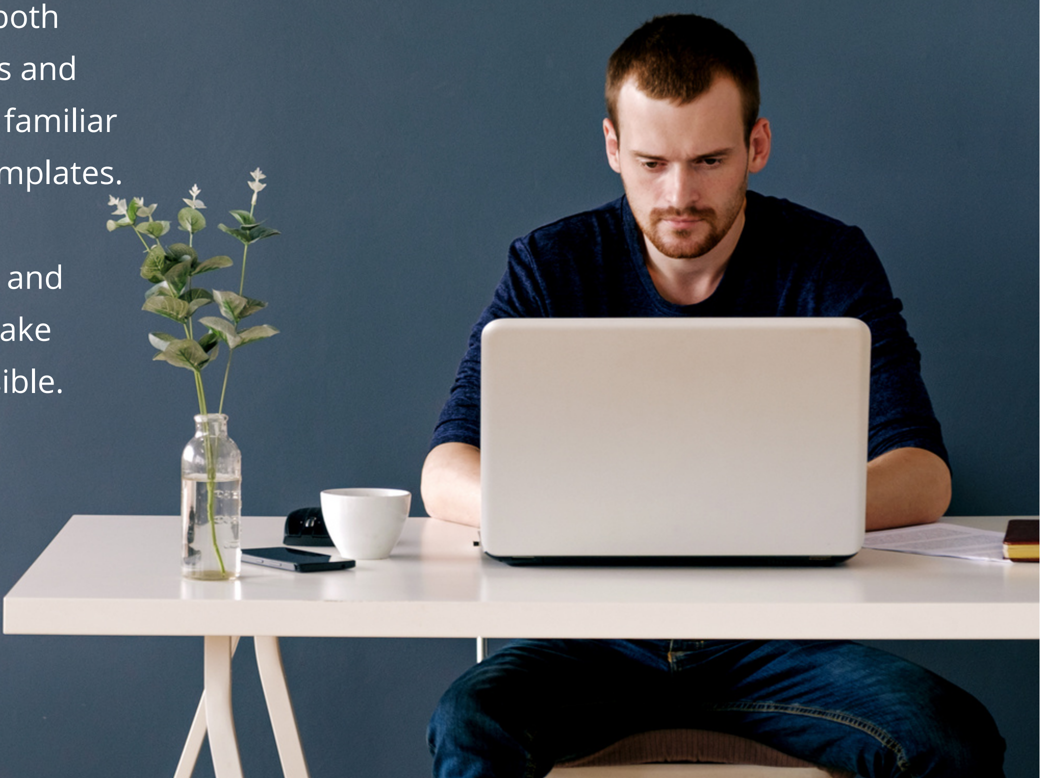
If there's a product you wish to recommend not already on our broad APL, there is a straightforward and reasonable specific approval process in place.

Lifespan also provides access to MerceriS research, and you have the freedom to use an alternative research house, should you prefer.

PARAPLANNING

Should you prefer to outsource your paraplanning, Lifespan offers both internal paraplanning solutions and outsourced providers who are familiar with the use of the Lifespan templates.

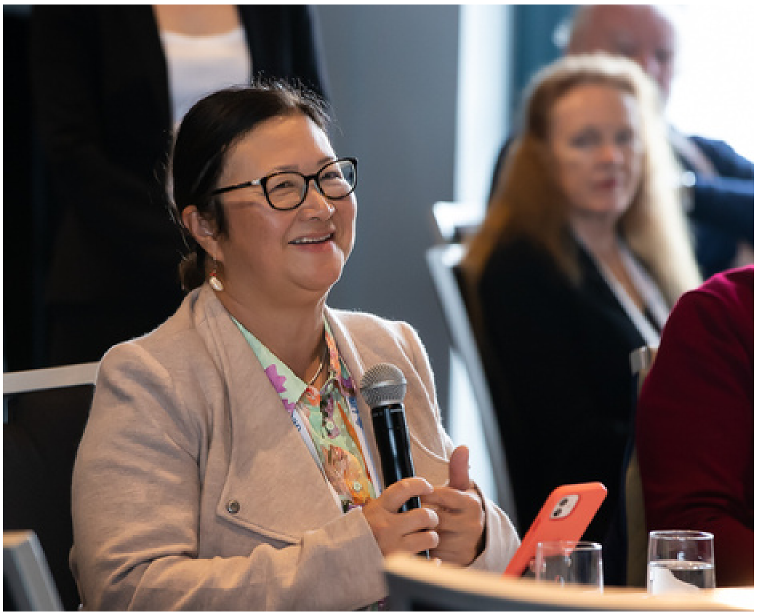
Our pricing is very competitive and we work closely with you, to make the process as smooth as possible.



EDUCATION PATHWAYS

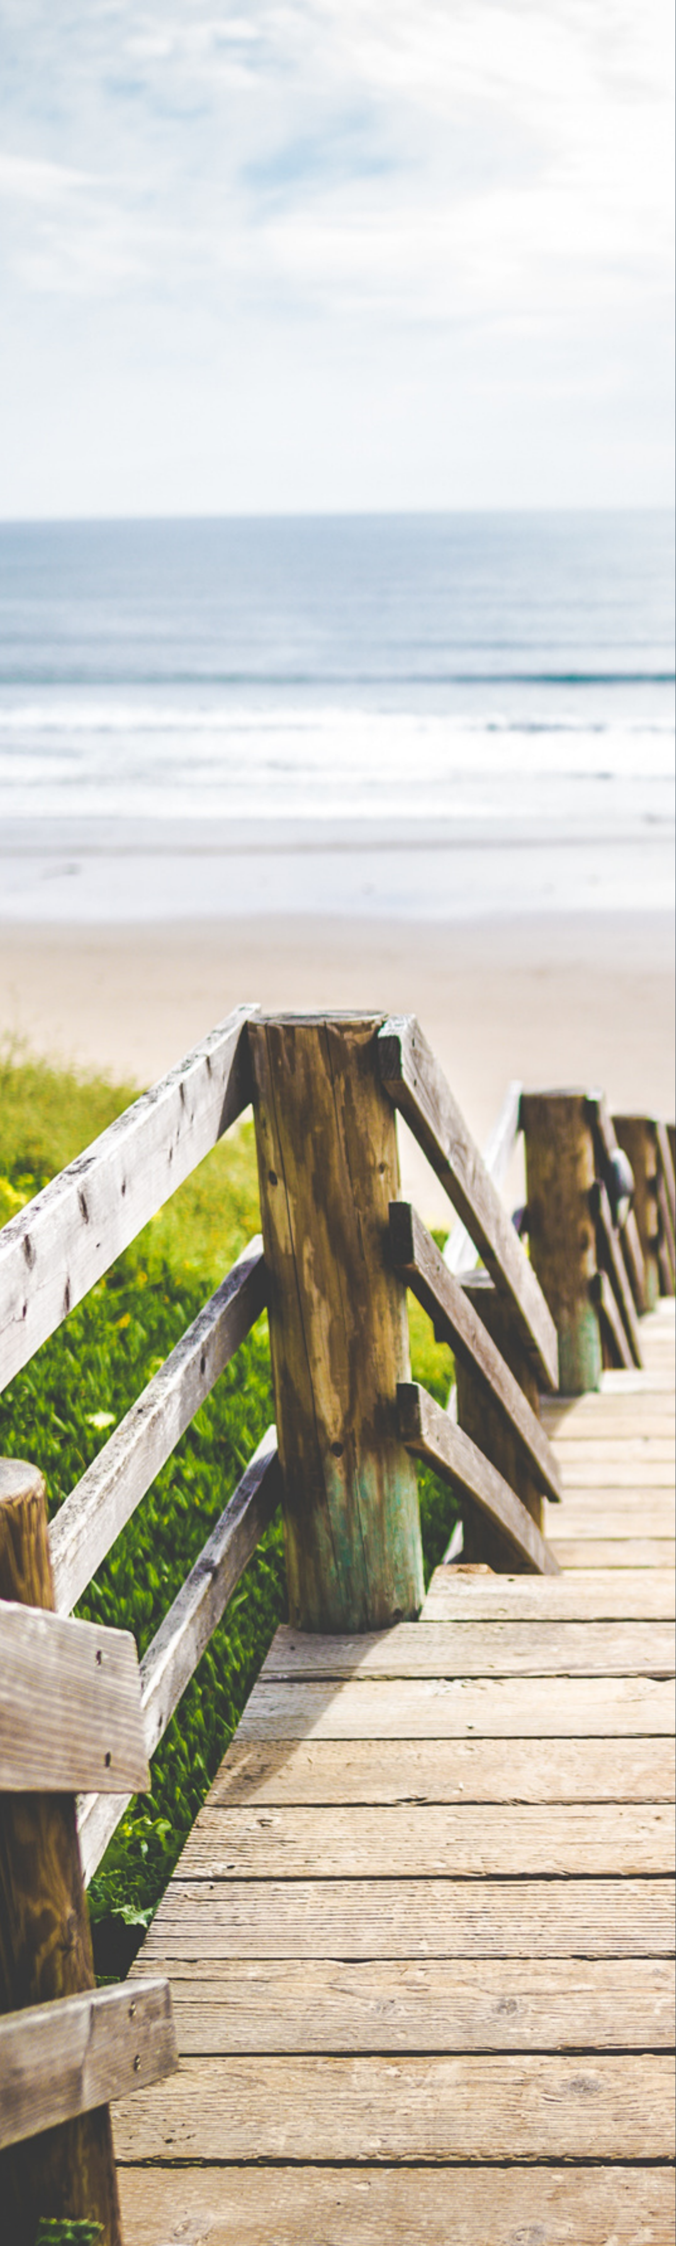
We have developed education pathways for our advice community. To support this we provide access to discounted Kaplan Professional modules and work closely with advisers to ensure that FASEA requirements are met.

These services are available to all advisers under our licensee services, and we encourage you to discuss what you need from an educational perspective so that we can be of assistance.



MARKETING

We are passionate about enabling our advice community to engage and connect with their clients and prospective clients. We provide a range of marketing services to support this, including newsletter content, and a comprehensive client communication library. We also work with practices assisting with communication and digital strategy.



ADVISER REMUNERATION PAYMENTS

Adviser payments are paid twice a month and include detailed breakdowns regarding the source of the remuneration and each client account. We can also accommodate the direct payment of any agreed referral fees to joint venture partners if needed.

We use REVEX to process and administer adviser payments. You are encouraged to subscribe to access detailed remuneration reporting for your practice.

FEES

We understand that every advice practice has its individual needs and cashflow. We enable advisers to negotiate a competitive arrangement with us that meets these needs.
Depending on the needs and preference of your business, fees can take the form of an:

- agreed adviser/licensee % share arrangement, including a reduced monthly amount or;
- annual fixed fee.

TRANSITION ALLOWANCES

Transitioning to a new licensing arrangement can be disruptive and at times financially overwhelming. We may offer fee waivers or discounts during the initial transition period, to support you during this process.

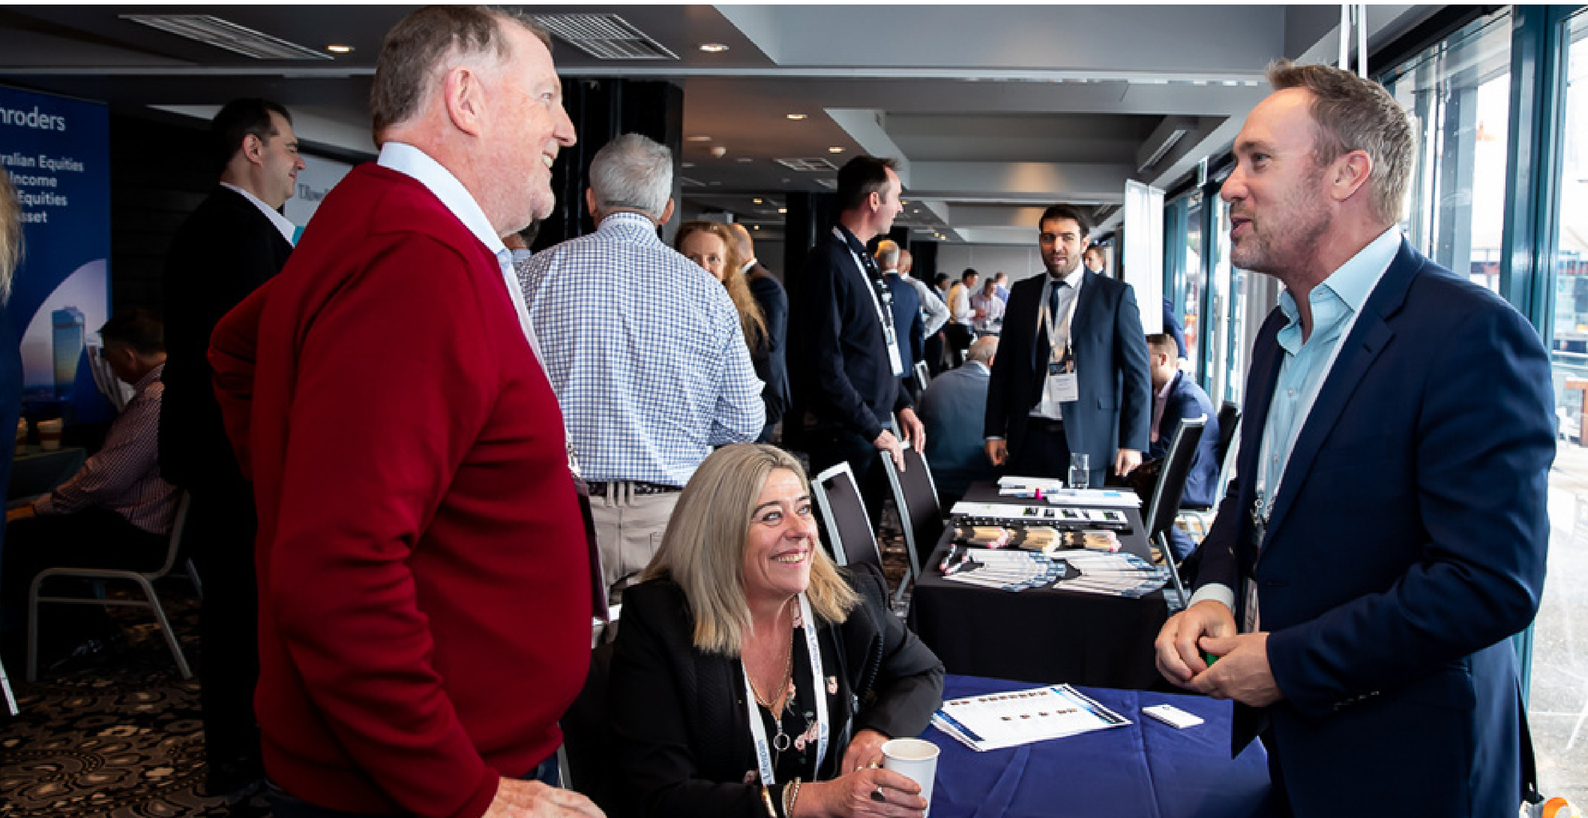
SUPPORTING YOUR BUSINESS YOUR WAY

We understand your business and how to help you get more out of it.

We are here for you. We pride ourselves on being accessible and responsive in the service and support that we provide our Lifespan community.

You can benefit from our well-resourced team, whilst experiencing the personal care and connection of our tight-knit advice community.

We also value our strong relationships with professional partners, across technology, education, product and platform, compliance, research, technical and so much more. We will engage the very best services that will support you to provide quality advice to your clients.



SELF-LICENSEE SOLUTIONS

We understand that one size does not fit all.
